

3rd Interventional Pain Istanbul
Virtual Symposium
23-24 October 2020, Istanbul, Turkey

Organized by WIP Registered Turkish Section (Affiliated to WIP)
Endorsed by World Institute of Pain

Dr. Agnes Stogicza is a board-certified anesthesiologist and pain physician more than 15 years of experience in interventional pain management. She completed her pain fellowship at the University of Washington, where she served as faculty from 2010 to 2017. As a clinician-educator she treated pain patients and taught fluoroscopy and ultrasound guided minimally invasive interventional pain procedures, regional anesthesia techniques and medication management for complex chronic pain patients to pain fellows and residents.

Currently she works in chronic interventional pain and anesthesia in Budapest at Saint Magdolna Private Hospital.

She is a member of the World Institute of Pain (WIP) Education Committee, Vice-Chair of the Hungarian Section of WIP and serves as an examiner for the FIPP (Fellow of Interventional Pain Practice) and CIPS (Certified Interventional Pain Sonologist) Board Certification.

She regularly lectures and teaches interventional pain procedures in the US, Europe, South America and Asia for the World Institute of Pain (WIP), the American Society of Interventional Pain Physicians (ASIPP), the American Society of Regional Anesthesia (ASRA), World Academy of Pain Medicine Ultrasonography (WAPMU) and other societies.

She is a co-founder of Pain School International (<https://painschoolinternational.com/>) that provides interventional pain education in Budapest for doctors from all around the world.

She has authored and co-authored numerous book-chapters and papers in chronic pain management.

Her main clinical interests are spinal pain and related conditions (headaches, arm and leg pains) and the application of regenerative medicine (such as PRP, Stem cell and prolotherapy for various spine and musculoskeletal conditions).
